Fruit

## The Powerful Noni Plant for Skin Care

Discover the rejuvenating multi-layered aroma of the exotic Noni fruit, with a skin enhancing cocktail of zesty citrus notes and refreshing tropical fruit carried on ocean breezes. The amazing Noni plant has been used by South Pacific Islanders as a source of food and medicine for over 2,000 years.

Different parts of the plants are used as powerful ingredients in health and skin care. Noni fruit, Noni leaf hydrosols and Noni seed oil are used in Pure Fiji's NEW Signature line of Noni rejuvenating products. This powerful ingredient is high in Omega 6, helps to build collagen and is high in antioxidants.

Pure Fiji's botanical blend is now enriched with the anti-ageing benefits of Noni in our signature line to improve fine lines and wrinkles, skin elasticity and firmness!

*discover the south pacific secret for beautiful skin*
